Domain 5: Finance & Banking AI [CO4/CO5]

D5: Insurance Claim Rejection Explainer and Re-Appeal Drafter

Problem Statement:

Insurance policyholders frequently receive opaque claim rejection letters without understanding why their claim was rejected or how to appeal. Build a GenAI system that analyses an insurance rejection letter, explains the specific grounds of rejection in plain language, and drafts a structured appeal letter with supporting arguments.

Expected Deliverables:

- Rejection letter upload (PDF/text)
- Identification of rejection grounds with plain-language explanation
- Policy clause cross-reference (against uploaded policy document)
- Structured appeal letter draft (DOCX)
- Demo on 3 rejection types: health, motor, life

Suggested Tech Stack:

LLM API, LangChain, PyPDF2, python-docx, Streamlit

Datasets Available:

- IRDAI Consumer Grievance Dataset — Insurance sector complaints and resolution data from IRDAI portal (irdai.gov.in/ADMINCMS/cms/frmGeneral_Layout.aspx?page=PageNo4081)
- Insurance Claim Text Dataset (Kaggle) — 16,000 insurance claim descriptions with approval/rejection labels (kaggle.com/datasets/das2/insurance-claim-dataset)
- SEC Insurance Policy Filing Corpus — Standard insurance policy documents in plain-text format (sec.gov/cgi-bin/browse-edgar?action=getcompany&type=S-1)
- LexGLUE Insurance Subset — Annotated legal insurance contracts from MultiEURLEX dataset (huggingface.co/datasets/lex_glue)
